

Awareness by creation mixed media from horse manure.

'Mest2Art' is born..

I wanted to process the fragile raw material in a simple, raw and Intriguing design. (Without odor transfer) All this with visibility of the raw fibers. I want to make people think and feel again.

See and feel the painting, from grass to manure to art. Make contact with the inner child and be born again. Think out of the box to reduce the global footprint in a sustainable way.

The chosen image is the capital of the Netherlands, Amsterdam.

World famous as an icon. The wish is to make people think about a sustainable ecological and a circular economy. With an open mind and without prejudice.

€ 495,00

'Amsterdam' 135x70

The chosen image is the capital of the Netherlands, Amsterdam.

World famous as an icon. The wish is to make people think about a sustainable ecological and a circular economy. With an open mind and without prejudice.

Intriguing design. (Without odor transfer)

All this with visibility of the raw fibers.

I want to make people think and feel again.

See and feel the painting, from grass to manure to art. Make contact with the inner child and be born again. Think out of the box to reduce the global footprint in a sustainable way.
